

# Magnetic Motor Starters in 24 - 72 hours

Since 1971, Palmer DCS has provided built-to-order magnetic starters that meet the demands of busy HVAC service companies, as well as mechanical and electrical contractors. The Palmer Enclosed Starter Solutions Guide contains close to 30,000 custom configurations, allowing us to deliver many of these products within 24 to 72 hours.

Palmer DCS has the magnetic starter solution to meet your needs and exceed your expectations. We offer a comprehensive array of both IEC and NEMA magnetic starters built-to-order—with many of these having same-day delivery. Our magnetic starters provide customized solutions for motor control in both fractional to lower horsepower motors.

Palmer DCS is also an industry leader in providing soft starters, pump panels, cooling tower panels, compressor controls panels, and the new Enclosed Variable Speed Starters for ½ to 10 HP Motors.

- More than 30,000 unique motor starter solutions through unique combinations of horsepower, features and options
- Job specific submittal data, technical documentation and trouble-shooting documentation
- Fast delivery, built-to-order, enclosed starters

## Why Choose Us?

We're not the only ones who do what we do, but we're proud to set the standard for how it should be done.

For nearly 50 years, Palmer DCS has manufactured control panels that have been deployed all over the world and we do so through our exclusive brand of QFR: Quality, Flexibility and Reliability.

We meet the high standards of industry-leading ABB to become an international ABB Authorized Manufacturing Center and System Integrator and member of the ABB Panel Builder Program. This means we operate in seamless cooperation with ABB to bring their products and services straight to your front door.

We are a member of Schneider Electric's Alliance Panel Builder Partner Program. We have the highest technical skills, regulatory adherence and time-saving processes to create high-quality panels for our customers.

We are proud to be a Colorado Company headquartered in Englewood, Colorado. We deliver electrical control solutions and custom control panels throughout Denver and Colorado, as well as to clients around the world.

## Commitment to Quality

### Quality Management System based on ISO 9001:2015

Our quality management system ensures we have the procedures and processes in place to consistently provide products that meet customer and industry requirements, while enhancing customer satisfaction.

### UL/CUL 508A Industrial Control Panels

Our UL508A certification signifies our compliance on various issues including proper component selection, wiring methods and calculation of short circuit current ratings.

### UL/CUL 698A NNNY Industrial Control Panels For Use in Hazardous Locations

This certification covers industrial control panels relating to Class I and II, Division 1 and 2 and Class III hazardous locations, which are factory-wired assemblies of industrial control equipment such as motor controllers, switches, relays and auxiliary devices.
